
<p>

Item Software Architecture

- \t\t- Designed and implemented scalable software architectures for large-scale applications, ensuring optimal performance and reliability.
- \t\t- Developed and deployed REST APIs using Python (FastAPI), serving over 50,000 daily active users.
- \t\t- Implemented robust security measures to protect against common web attacks.

Item API Design

- \t\t- Created intuitive and user-friendly APIs that meet the needs of diverse clients and stakeholders.
- \t\t- Conducted thorough analysis of client requirements and developed tailored solutions.
- \t\t- Collaborated with cross-functional teams to ensure seamless integration of APIs into larger systems.

Item Programming Languages

- \t\t- Proficient in Python (FastAPI) and experienced in developing scalable web applications.
- \t\t- Familiarity with JavaScript (including ReactJS) and experience with C/C++ and Java.

Item Experience

- \t\t- Built and deployed multiple REST APIs serving over 50,000 daily active users.
- \t\t- Collaborated with teams to design and implement software architectures for large-scale applications.
- \t\t- Developed and maintained multiple web applications using Python (FastAPI) and JavaScript (ReactJS).
