

This ruler is designed to print on 8.5 x 11 inch (21.59 x 27.94 cm) paper. Due to inherent differences in printers and settings, please make sure you are printing at 100% size or actual size so the ruler will stay true to size. Usually this means "Default" if you're printing the PDF from Chrome.

For best results, we recommend comparing with a physical ruler for accuracy.

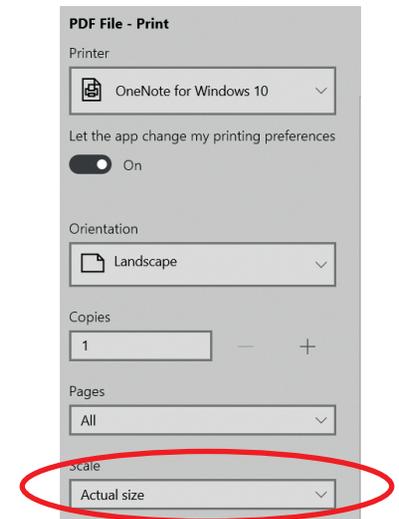

You will probably need to choose these options when printing in the following operating systems/browser:

Chrome Browser  
Set Scale to Default

Mac Os  
Set Scale to 100%

Microsoft Windows  
Set Scale to Actual Size
