Jane Doe

Data Analyst based in Perth, Australia. Email jane.doe@example.com.

Summary

Data analyst with 6 years of experience turning operational data into decisions for retail and logistics teams. Builds SQL models and dashboards that non-technical managers use weekly.

Experience

Senior Data Analyst, ShopFront Retail, 2021-03 to present

- Built a SQL pipeline consolidating 14 stores of sales data into one daily model.
- Shipped a Tableau dashboard used by 40 store managers every Monday.
- Cut weekly reporting time from 6 hours to 1 hour by automating extracts in Python.
- Mentored 2 junior analysts through their first production dashboards.

Data Analyst, QuickFreight Logistics, 2019-06 to 2021-02

- Modelled delivery delays in Python and found the top 3 causes of late freight.
- Maintained Excel and Power BI reports for the operations team.

Education

Bachelor of Commerce (Business Information Systems), Curtin University, 2018.

Skills

- SQL (PostgreSQL, BigQuery)
- Python (pandas, matplotlib)
- Tableau, Power BI
- Git, dbt basics
- Stakeholder workshops and training
