

## Sample PDF for ragkit Tests

This document exists so that the ragkit test suite has a small, self-contained PDF fixture to exercise the PdfmuxLoader adapter without depending on third-party copyrighted content.

### Section 1: Plain ASCII

The quick brown fox jumps over the lazy dog. The five boxing wizards jump quickly. Pack my box with five dozen liquor jugs.

### Section 2: Multi-byte characters

Hello world. Bonjour le monde. Hola mundo.  
Greek: alpha beta gamma. Math:  $e^{i\pi} + 1 = 0$ .

### Section 3: A short paragraph

Retrieval-augmented generation pairs a frozen language model with an external corpus. The corpus is indexed once; at query time the retriever finds passages relevant to the question, the generator composes an answer from those passages.

This text is the work of the ragkit authors, licensed under MIT along with the rest of the project.
