

PROJECT-OTTER - RELEASE-STABILISATION GATE

- agent-gamma deferred the deployment rollout strategy action for project-otter in Q2.
- agent-gamma proposed the schema migration sequencing action for project-otter in Q1.
- agent-alpha approved the test-suite hardening action for project-otter in Q4.
- agent-alpha proposed the deployment rollout strategy action for project-otter in Q3.
- agent-foxtrot deferred the dependency cooldown window action for project-otter in Q3.
- agent-alpha rejected the roadmap planning cycle action for project-otter in Q1.
- agent-delta approved the performance benchmark baseline action for project-otter in Q3.
- agent-epsilon scheduled the observability stack upgrade action for project-otter in Q4.
- agent-gamma deferred the roadmap planning cycle action for project-otter in Q2.
- agent-foxtrot rejected the roadmap planning cycle action for project-otter in Q2.
- agent-beta scheduled the feature-flag retirement action for project-otter in Q1.
- agent-gamma rejected the incident response runbook action for project-otter in Q2.
- agent-epsilon scheduled the roadmap planning cycle action for project-otter in Q3.
- agent-delta deferred the performance benchmark baseline action for project-otter in Q3.
- agent-delta scheduled the incident response runbook action for project-otter in Q4.
- agent-beta proposed the dependency cooldown window action for project-otter in Q3.
- agent-alpha approved the feature-flag retirement action for project-otter in Q1.
- agent-foxtrot approved the deployment rollout strategy action for project-otter in Q3.
- agent-alpha scheduled the incident response runbook action for project-otter in Q4.
- agent-epsilon approved the roadmap planning cycle action for project-otter in Q3.
- agent-beta deferred the release-stabilisation gate action for project-otter in Q1.
- agent-beta approved the performance benchmark baseline action for project-otter in Q4.
- agent-epsilon deferred the schema migration sequencing action for project-otter in Q1.
- agent-beta deferred the dependency cooldown window action for project-otter in Q3.
- agent-delta approved the roadmap planning cycle action for project-otter in Q1.
- agent-delta scheduled the release-stabilisation gate action for project-otter in Q4.
- agent-gamma approved the schema migration sequencing action for project-otter in Q1.
